

Electronics Line 3000 to Launch CommPack at IFSEC 2010 A New Cost Optimized Wireless Residential Security Solution

Petach Tikvah, Israel (April 11, 2010) – Electronics Line 3000 Ltd. (Prime Standard: ELN), a leading global provider of residential security with remote management, launches CommPack, a uniquely small, innovative, all-in-one-box wireless residential security solution, available with GPRS and/or PSTN communication modules. CommPack will be launched at IFSEC 2010, May 10-13, at the NEC in Birmingham, UK.

CommPack has been uniquely designed to include all essential residential security functionalities, with the added bonus of extra small packaging, simple wireless installation and advanced remote management capabilities based on GPRS, and at a competitive market price. The solution provides uncompromised reliability and advanced functionality, and offers users intuitive operations as well as easy upgrades and monitoring for providers.

CommPack allows users to be always up to date regarding their home and loved ones and in control of their system by receiving SMS and email notifications, and sending SMS commands and requests for updates. Moreover, CommPack GPRS incorporates a dedicated Web user interface for interactive, on-line system control, integrated location based services, video look-in, system settings and controls, and more. The solution also includes a dedicated WAP user interface offering the same on-line remote management features as the Web user interface for users to enjoy through their mobile handsets.

Providers benefit from CommPack's comprehensive suite of management applications and diagnostic tools, offering real-time monitoring en masse, mass remote management, maintenance and status check as well as on and off site configuration and remote firmware updates.

CommPack is suitable for partners such as monitoring and installation companies, value-added distributors, property developers and service providers to incorporate into their offering and enjoy a value-for-money residential security solution.

Douglas Luscombe, Electronics Line 3000's CEO commented: "We are proud to launch this new solution which offers uncompromised functionality, based on our proven technology, and delivers superior performance at a highly competitive price. Customers will now be able to choose from our high-end wireless solutions such as iConnect, and innovative cost effective solutions as CommPack, allowing us to provide the market with a diversified offering which caters to every market need and offers the latest in wireless residential security".

CommPack press launch will take place on Monday, May 10th at 14:30, hall 3A, stand E5.
